The Monthly Prediction shows how the planets in the sky, each day of the month, form a connection to the planets in your birth chart. For example: (Sun 60 Venus) means that the Sun is forming a 60 degree connection to Venus in your chart. The transiting planet is mentioned first, the second planet is the one in your birth chart. (The numbers 0-45-60, etc, indicates the type of aspect or connection.) It is connections like these that instigate events and activities in your life.

The texts or energies marked by bold (black) are stronger or more important than others and last longer. The reason for this is that the planets move in different orbits, some are fast, others move slowly, so when they "hit" you, some do so fleetingly, others stay with you for days, weeks or even months.

The Moon moves fast so its influence is fleeting and short lasting. You may not even notice some of the Moon 'hits'. The Sun, Mercury and Venus travel approximately one degree per day, so their influence can last a day or two. Mars travels on average 1/2 a degree per day, so the martial inspiration can last for a few days. It takes Jupiter a whole year to travel through one sign, Saturn travels through a sign in 2 1/2 year, and Uranus, Neptune and Pluto take even longer.

For this reason the Jupiter to Pluto texts are prefaced with: a Period... because when these planets enter your life they do so for a period of time. That's the reason why we sometimes feel that everything is against us for a few weeks or everything works great for a few weeks, etc.

The Monthly Prediction is a 'real-life' document, so it 'imitates' life, some days nothing much is happening, at other days everything is going on at the same time. When you get used to this you'll discover that there is a certain pattern in the way the planets influence your life. This is an exciting and useful knowledge, because it enables you to become aware of your natural rhythm. When that happens you'll be able to control your life to a greater extent than before.

The Lucky Day feature is designed to help you find and use the easier and more harmonic energies in your life.
